Aid for Violence Risk Triage

Workshop

Workshop Overview

Protect International is pleased to present a 1-Day Aid for Violence Risk Triage Workshop.

The Aid for Violence Risk Triage (AVRT) is a newly released tool designed to help professionals to determine when they have a reason to be concerned about violence towards others, how to prioritize cases, and what immediate actions to implement. The AVRT has been under development for over two decades and is based on extensive research, feedback from experts, and consideration of the law. Successful completion will be recognized with a certificate of completion for each participant.

Our Instructor

Dr. Kelly Watt is an internationally recognized expert, a prolific author, and an engaging presenter. She has been involved in developing, implementing, and evaluating risk assessment procedures around the world. She is passionate about providing evidence-based understanding, knowledge, and skills in victim safety planning that professionals can apply in practice.

February 12

AVRT

- The nature of violence and violence risk
- Identifying warning signs and implementing immediate actions
- Administration of the *Aid for Violence Risk Triage*

Why Attend?

Develop your skills

Build your expertise when making and communicating decisions about cases that involve violence risk.

Implement best practices

Learn about best practices for assessing and managing honour-based violence to prevent future harm and decrease your liability.

Network with others

Strengthen your relationships with other professionals with a shared interest in and responsibility for this area.

Who Should Attend?

This workshop is designed for professionals whose work involves violence risk assessment and management, including those working in criminal justice, security, victim services, forensic mental health, civil mental health, general health care, social services, human resources, occupational health and safety, and legal services.
