Victim Safety Planning Using the ASAP

Workshop

Workshop Overview

Protect International is pleased to present a 1-Day Victim Safety Planning Using the ASAP Workshop.

Victim safety planning is a critical management strategy for all violence risk assessments but it is often not given the attention it deserves or requires. During the workshop you will learn about best practices and challenging issues related to safety assessment and planning and how to administer the Aid to Safety Assessment and Planning Guideline (ASAP), an SPJ for victim safety planning. Successful completion will be recognized with a certificate of completion.

Our Instructor

Dr. Kelly Watt is an internationally recognized expert, a prolific author, and an engaging presenter. She has been involved in developing, implementing, and evaluating risk assessment procedures around the world. She is passionate about providing evidence-based understanding, knowledge, and skills in victim safety planning that professionals can apply in practice.

January 15

ASAP

- Best practices and challenging issues related to safety planning
- Special issues related to safety planning (e.g., lethality assessment and fear management)
- Administration of the *Aid to Safety Assessment and Planning Guideline*
